

Don't Look Down

If you're on the high wire setting the world on fire
Don't Look Down Don't look down
With no safety net in place or support from the human race
Don't Look Down Don't look down

When they show you something new and it looks like it will come unglued
Don't Look down Don't look down
And you don't have the know how to make it all go now
Don't Look Down Don't look down

Chorus

Don't look down to see the faces or the frowns
Just take your chance and lead them a dance
Just Don't Look Down

When the man from the government says that's not what he meant
Don't Look down Don't look down
You can be rest assured that the world will not be cured
Just don't look down Don't look down

When the glamour girls on TV Says this can be yours maybe
Don't look down don't look down
And it seems to be just crusin' remember its all an illusion
Don't look down don't look down

Chorus

Paint pictures in you mind try to change us all the time
Don't look down don't look down
Just believe in you that's all you need to do
Don't look down don't look down
